Aaranyak

A Scientific and Industrial Research Organisation, recognised by
the DSIR, Ministry of Science and Technology, Govt. of India

BACKGROUND

The Manas Conservation and Outreach Center (MCOC) has been set up by Aaranyak (www.aaranyak.org) to support communities from the magnificent Manas Landscape for promotion of community-oriented conservation of natural resources and sustainable livelihood. The center is an important field facility for Aaranyak to carry out research works and conservation activities particularly within the Manas Landscape but not limited to it.

The MCOC welcomes researchers and students from schools, colleges and universities embarking on field visits in the Manas Landscape that has rich biodiversity as well as strong presence of ethnic communities and practices. Individuals undertaking exploration of rich Manas Landscape too are welcomed at MCOC.

KEY ACTIVITIES

1. Demonstration on green skill-based livelihood for local communities, trainees and visitors.
2. Education and outreach on the importance of Manas National Park and the Landscape.
3. Training and capacity building for researchers/students/frontline staff/community /NGO/CSO/SHG.
4. Networking for advocacy, grassroot level community mobilisation, and convergence.
5. Experimental research on integrated fishery, soilless plant growing, hydroponics/aquaculture, Bokassy methods of poultry/piggery.
6. Production of various items based on green skill demonstrations.
7. Service facilitation.
8. Logistic facilitation.
9. Developing training and communication material.
